

## Lucky number 13...

2016 marks the thirteenth year WomensTrust has been operating in Ghana, and helping thousands of women and girls reach their potential - thanks to donors like you.

***This holiday season, let's go even further!***

**DONATE NOW**

WomensTrust keeps girls in school by providing scholarships, mentoring and after-school tutoring, as well as computer training. In Pokuase, the village where we work, although illiteracy is rampant, more of our girls than ever are graduating from high school and in some cases going to college.

This year, for the very first time, we're bursting with pride to report that two of our scholarship girls are finishing nursing school, a milestone that could not have been reached without WomensTrust and its donors.

**Your generosity can help empower women and girls in Ghana to break the cycle of poverty and create a better future.**

**A gift of...**

**\$1,000 can send a girl to university or vocational training.**

**\$500 can purchase a computer for our after-school computer lab.**

**\$400 can provide a scholarship for a high school girl.**

**\$200 can cover the cost of school fees, a uniform and supplies for a primary student.**
